

BLX

BOTTOM LINE EXPERTS

Improving Your Bottom Line, One Expense at a Time

Who's got time to analyze all those FedEx® and UPS® shipments? You do.

Turning your shipping data into dollars just got easier with BLX's newest Parcel Intelligence Dashboard.

Shipping's never been so optimized.

Introducing Bottom Line Expert's newest Parcel Intelligence Dashboard. Rebuilt from the ground up and unlike anything in the industry. It's where powerful shipping data meets simple reporting. BLX's free dashboard enables you to make big cost-saving decisions with just a few clicks of your mouse.

Ready for a test-drive?

Built by experts

We've used over 200 years of parcel expertise and innovation to build shippers an invaluable tool with a single vision: to audit and uncover hard-to-find cost-saving data within your UPS/FedEx spend.

Data into dollars

Quickly unpack the power of your shipping data and easily identify and highlight action items. Changing all those costly shipping habits is now simple. And the results? Big savings.

Intuitive & customizable

Complex parcel logistics demand simple, yet intuitive reporting tools that can be tailor made, on the fly. Your entire team can customize easy-to-read dashboards and output reports that will make any presentation sing.

Where's my package?

From distribution to destination, you now have the ability to watch any shipment in real time. Enter any tracking number and view suggested time-in-transit data. And red-flagged refunds means no more pulling complicated invoices.
